

INSULIN STORAGE RULES

WARNING!
FOLLOW THE DIRECTIONS
OF YOUR PHYSICIAN OR
INSULIN MANUFACTURER

Most doctors recommend insulin be kept refrigerated to ensure its maximum potency. This product is intended to keep your insulin cool and safe during day-trips and short-term travels.

While traveling you need to keep your insulin protected against high heat. Keep this storage bag in your hand carry luggage only. Check with the medication manufacturer regarding proper storage temperature of your medication and how to check the quality/condition of the medication prior to use. Inspect the product before use and discard if damaged.

Keep away from children. This product is not child resistant.
