WORK AREA

WARNING

Keep your work area clean and well lit. Cluttered work benches and dark work areas may cause accidents or injury.

Keep bystanders, children and visitors away while operating this tool. Distractions can cause you to lose control.

TOOL USE & CARE

CAUTION

Do not force tool. Use the correct tool for your application. The correct tool will do the job better and safer at the rate for which it is designed.

Store idle tools out of reach of children and other untrained persons. Tools are dangerous in the hands of untrained users.

WARNING

Keep children, and other distractions at a distance while operating pallet puller.

WARNING

Use common sense while operating this tool.

Do not use this tool if you are:

- Feeling tired or are under the influence of alcohol or drugs.
- Wearing loose clothing or jewelry. Keep long hair pulled back and away from moving parts.
- Overreaching or have improper footing. Handling the tool in this way can cause serious injury.

WARNING

Safety glasses and ear protection must be worn during operation.

WARNING

This tool may contain chemicals known to cause cancer, birth defects, or other reproductive harm. Wear protective gear.

The Heavy Duty Pallet Puller is used to pull pallets to rear of trailers for easy fork truck access. It is rated to pull a 6,000 lb (3 Ton Capacity) skid across a smooth surface. Turn and pull to reach pallets out of truck beds and trailers. If you don't have access to loading docks or if your forklift forks are too short, the Pallet Puller is invaluable.

WARNING: DO NOT USE FOR LIFTING

1. Use a heavy duty chain or winch cable that is rated equal to or greater than 6,000 lb.
2. Attach chain hook to the hook end of Pallet Puller. Securely attach opposite end of chain to forklift.
3. Attach the grip end of the Pallet Puller to the middle pallet plank.
4. As you pull the chain with the forklift, it will increase the grip on the pallet plank.
